Library
Project

Linda Kerr Completed her Masters in Library and Information Studies at UCD in 2017. She has previously taught French in a Primary School and has been a tutor at UCD but decided to follow her dream to become a school librarian in 2014. Her BA is in Information Studies and Art History. She began as the librarian in Killinarden Community School in 2019. Along with station teaching 1st Years in Maths and English she runs Coding Club, Chess Club and Library Assistants Club. Her interests include combining digital technology with the creative arts, digital curation and promoting reading throughout the school. Students have quickly learned that she is NOT from America and Canada is NOT the same thing. She is yet to dispel the rumour that she is the voice of Siri.
